Smart Contract Weakness Classification and Test Cases [SWC-[100:136]]
Common Weakness Enumeration [CWE]
OWASP Risk Rating Methodology

Audit Results

Risk Level:

Weakness

Low

Medium

High

Critical

1

The owner of contract can grant any wallet address Admin rights, which allows users to set various variables in the ecosystem

2

Any authorized admin can to modify a 'liquidity fee', a 'reftokenfee', a 'refee' and a 'market fee' to any percentage at any time

3

This might deter investors as they could be wary that these fees might one day be set to 100% to force transfers to go to the owner

4

Any authorized admin has ability to set a tax limit and fee receives

We strongly recommend that BitRides conduct Full Token Security Audit to ensure trust in the team as they have notable control within the ecosystem
