1

The owner can to modify a 'liquidity fee', a 'buyback fee', 'reflection fee' and a 'marketing fee' to any percentage at any time

2

This might deter investors as they could be wary that these fees might one day be set to 100% to force transfers to go to the owner

3

The owner of contract has the ability to set fee receivers

4

This can be used in a nefarious way by the project team to restore ownership and change fee structures

We strongly recommend that FAIRSAFEMOON conduct Full Token Security Audit to ensure trust in the team as they have notable control within the ecosystem
