

# Quick Audit Report

## For *ForeverMooning*

0x8511FF78B54ccb6d67a802763997E8cEe76BdCe8

Instruments:

Smart Contract Weakness Classification and Test Cases [SWC-[100:136]]  
Common Weakness Enumeration [CWE]  
OWASP Risk Rating Methodology

## Audit Results

Risk Level:

1

The owner can to modify a 'liq fee', a 'tax fee', a 'burn fee', a 'wallet fee' and a 'buyback fee' to 10 percentage at any time

2

This might deter investors as they could be wary that these fees might one day be set to 50% to force transfers to go to the owner

3

The owner of contract has the ability to use the lock function in order to set ownership to address(0) at any time

4

This can be used in a nefarious way by the project team to restore ownership and change fee structures

**We strongly recommend that ForeverMorning conduct Full Token Security Audit to ensure trust in the team as they have notable control within the ecosystem**
