

# Quick Audit Report

## For **KishuBTC**

0x42Cb67179450a83754A8F6d46a30c650A616cD36

Instruments:

Smart Contract Weakness Classification and Test Cases [SWC-[100:136]]  
Common Weakness Enumeration [CWE]  
OWASP Risk Rating Methodology

## Audit Results

Risk Level:

1

The owner of contract can grant any wallet address Admin rights, which allows users to set various variables in the ecosystem

2

Any authorized admin can to modify a 'rew fee', a 'mar fee' and a 'liq fee' to any percentage at any time

3

This might deter investors as they could be wary that these fees might one day be set to 100% to force transfers to go to the owner

4

Any authorized admin has the ability to set tax limit and fee receivers

**We strongly recommend that KishuBTC conduct Full Token Security Audit to ensure trust in the team as they have notable control within the ecosystem**
