

# Quick Audit Report

## For *Lady Doge Coin*

0x51c24DDB84851693B84DE433300Dc78272c27b71

Instruments:

Smart Contract Weakness Classification and Test Cases [SWC-[100:136]]  
Common Weakness Enumeration [CWE]  
OWASP Risk Rating Methodology

## Audit Results

Risk Level:

Weakness

Low

Medium

**High**

Critical

1

The owner of contract can to modify a 'liquidity fee', a 'tax fee' and a 'pool fee' to any percentage at any time

2

This might deter investors as they could be wary that these fees might one day be set to 100% to force transfers to go to the owner

3

The owner has ability to exclude and include accounts from transfer fees and reward distribution at any time

4

The `_getCurrentSupply` and the `includeInReward` functions for loop does not have accounts length limit, which costs more gas

**We strongly recommend that Lady Doge Coin conduct Full Token Security Audit to ensure trust in the team as they have notable control within the ecosystem**
