1
The owner of the contract can exclude and include accounts from transfer fees and reward distribution at any time

2
DoS with Block Gas Limit

Consider removing the includeInReward and the getCurrentSupply functions

3
The owner has the ability to set and update a maximum transaction percent at any time

4
The owner has the ability to use the lock function in order to set ownership to address(0) at any time

We strongly recommend that HyperSafemoon15x conduct a Full Token Security Audit to ensure trust in the team as they have notable control within the ecosystem
