CHECK
POINT

Instruments:

Smart Contract Weakness Classification and Test Cases [SWC-[100:136]]
Common Weakness Enumeration [CWE]
OWASP Risk Rating Methodology

Audit Results

Risk Level:

○ Weakness   ○ Low   ○ Medium   ● **High**   ○ Critical

1
The owner can to modify a 'liquidity fee', a 'tax fee', a 'burn fee' and a 'reflection fee' to any percentage at any time

2
This might deter investors as they could be wary that these fees might one day be set to 100% to force transfers to go to the owner

3
The owner can blacklist wallets from purchasing or selling the coins they hold. This might deter investors from purchasing the coin

4
The owner has the ability to use the lock function in order to set ownership to address(0) at any time

We strongly recommend that Mystery Coin conduct Full Token Security Audit to ensure trust in the team as they have notable control within the ecosystem
