Audit Results

Risk Level:

○ Weakness   ○ Low   ○ Medium   ● **High**   ○ Critical

1
The owner of contract can to modify a 'lotto fee', a 'burn fee' and a 'tax fee' to any percentage at any time

2
This might deter investors as they could be wary that these fees might one day be set to 100% to force transfers to go to the owner

3
The owner of contract has the ability to use the lock function in order to set ownership to address(0) at any time

4
This can be used in a nefarious way by the project team to restore ownership and change fee structures

We strongly recommend that Decentra-Lotto conduct Full Token Security Audit to ensure trust in the team as they have notable control within the ecosystem
